In this example a Premium Merchant of Benefit Barcode provides 10+3% discount for **significantly increasing sales**.

The discount can be any percentage, but the commission can only be divided by three.

Immediate benefit

At the Point of Acceptance the bercode-holder gets a 10% discount.

Commission

From the Point of Acceptance the 3% commission is collected automatically

The commissions received by Benefit Barcode will be credited to our Issuing Partners' accounts

- **1/3** goes to the Issuing Partner whose bercode was used for that given purchase
- **1/3** goes to the Issuing Partner whose bercode the Merchant connects to the platform with

1/3 - covers the expenses of Benefit Barcode
